PROPHECY® INBONE® Preoperative Navigation Guides

Case#### - Dr. Demo Surgeon
Patient ID - Left - Surgery: MM/DD/2012

INBONE® II Size 4 Tibia & Size 4 Talus

Anterior Views

— Tibia Mechanical Axis
— Tibia Anatomic Axis

Axis Angles
Anatomic vs. Mechanical
Coronal = .13°

Notes

Tibia implant is aligned perpendicular to the Anatomic Axis
Medial/Lateral placement is set:

- Bisect gutters
- to ensure the stem implants fall within the tibial canal

Axis Angles Anatomic vs. Mechanical	
Sagittal = .49°	

Implant Information

Tibia Notes

- Tibial tray is 4
- Top stem is 16mm
- Mid stem is 16mm
- Mid stem is 16mm
- Base stem is 18mm

Talus Notes

- Talar dome is size 4
- Talar stem is 10mm

INBONE® II Size 4 Tibia and Size 4 Talus Tibia Rotation Distal Views

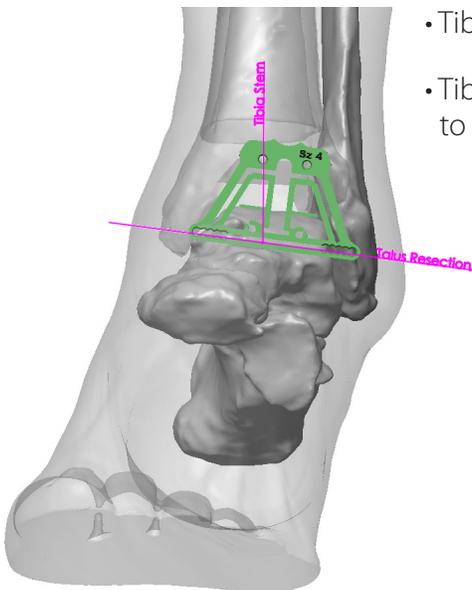

Posterior

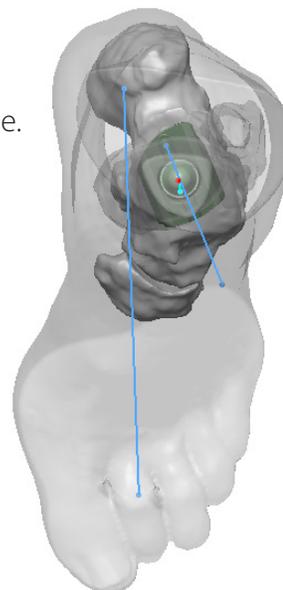

AP Direction: Gutter Bisection

Notes

- Tibia gutter angle: 21°
- Tibia implant is placed to match the anterior edge.

Talus resection planned to result in a 7.1° varus correction

Internal/External orientation is 20° external to the approximate foot orientation

Lateral View

Posterior

Anterior

- Size 4 talus implant is selected to maximize bone coverage while minimizing implant overhang
- Talus anterior direction: [Gutter bisection](#)
- Gutter angle: 19.3°
- The resection depth is set so Implant matched to natural talar dome and is 4mm proximal to the talar neck.

Summary

Tibial Alignment Method

- Tibia implant is aligned to the Anatomic Axis.
- Anterior direction is set by the Gutter bisection
- Medial/Lateral implant placement:
 - Bisect gutters
 - The cuts on the medial malleolus and fibula are minimized.
 - ML Tibial coverage
- Anterior/Posterior implant placement:
 - Anterior edge

Talar Alignment Method

- Talus implant flexion is set to match the natural talus.
- Talus implant is selected to maximize bone coverage while minimizing implant overhang.
- Anterior direction is set by Gutter bisection
- The resection depth is set so implant matched to natural talar dome.

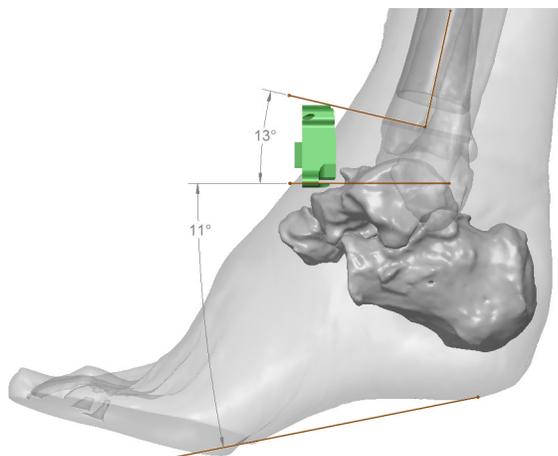

PROPHECY® Engineering Comments

The pre-op CT scan indicates pre-op plantar flexion of 13°

Recommended Implants

- Tibial tray: Sz 4 (200222904)
- Tibial insert: Sz 4 (220224409E)
- Stem Components:
 - Top: 16mm (200011902)
 - Middle: 16mm (200010902)
 - Middle: 16mm (200010902)
 - Base: 18mm (200009902)
- Talar dome: Sz 4 (220220904)
 - Stem: 10mm
- PROPHECY® Part Number: PNA####

The pre-op CT scan indicates pre-op plantar flexion of 13°
